

SANCTUARY LAWN CARE

SANCTUARY TDN[®]

10-0-5 STANDARD GRADE

SANCTUARY TDN[®] 10-0-5 offers a 2:1 ratio of nitrogen to potassium for added stress tolerance. This slow release nitrogen product provides a slow, even feed to the turf. Plus, this non-phosphorus product is ideal in environmentally sensitive areas inclusive of wetlands and waterways. Sanctuary 10-0-5 contains 100% slow release nitrogen that is ideal for excellent residual color, and for stress and wear tolerance in the summer. Sanctuary 10-0-5 enhances the microbial life and nutritional energy in the soil system. Sanctuary 10-0-5 can be applied throughout the growing season at a wide range of nitrogen rates. This all-season product offers excellent turf recovery and promotes rooting and turf density in the fall.

SANCTUARY BENEFITS

.....

- 1** Contains 100% Organic Ingredients for All Natural Site Applications
- 2** Promotes Excellent Residual Color with Slow Even Growth
- 3** Enhances Fall Turf Recovery and Spring Color
- 4** Addresses Regulations that Require an ALL Natural Product
- 5** Delivers A Nutritional TDN Energy Value of 76

THE SANCTUARY DIFFERENCE - TOTAL DIGESTIBLE NUTRIENT VALUE[™]

SANCTUARY LAWN CARE

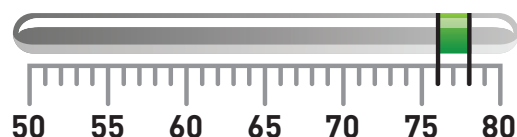

10-0-5 STANDARD GRADE

GUARANTEED ANALYSIS

Total Nitrogen (N)..... 10.0%
 10.0% Water Insoluble Nitrogen
Soluble Potash (K₂O)..... 5.0%

Derived from: Hydrolyzed Feather Meal, Blood Meal, and Potassium Sulfate.

TDN VALUE (TOTAL DIGESTIBLE NUTRIENT VALUE)

TDN Value is the digestible energy derived from the natural ingredients in this product. This energy is released by the native soil microbes which increases their soil activity. This TDN energy value is exclusive to natural ingredients used in this product. The higher the TDN value, the more energy that is in the product. This released energy is the unique agronomic benefits derived from using natural fertilizer products. For example, all traditional fertilizers have a 0 TDN value and 100% manure products have around a 20 TDN value.

DIRECTIONS FOR USE

SPRING PROGRAM:

Apply 6 lbs of product per 1000 sq ft for residual color and growth.

SUMMER PROGRAM:

Apply 4 lbs of product per 1000 sq ft for residual color and summer stress tolerance.

FALL PROGRAM:

Apply 8 lbs of product per 1000 sq ft for summer stress recovery and residual color & growth.

LATE FALL PROGRAM:

Apply 8 lbs of product per 1000 sq ft for enhanced turf density, rooting and spring green up.

AFTER AERATION PROGRAM:

Apply 8 lbs of product per 1000 sq ft for rooting and recovery.
