

SANCTUARY TDN[®]

3-3-4 STANDARD GRADE

SANCTUARY TDN[®] 3-3-4 is an all-natural based biological fertilizer for a wide range of landscape installation and maintenance applications. This product contains energy rich organic fertilizer components that naturally deliver the NPK nutrients to the plant. This product provides a slow, non-burning nutrient release that aids with root regeneration and plant establishment at time of installation. Plus, this product is an excellent maintenance product for annual & perennial flowers, ground covers and ornamental trees & shrubs in foundation and color beds. Lastly, this product contains a broad group of beneficial soil bacteria and fungi to enhance biological soil activity to aid with the release of these organic nutrient ingredients.

TDN VALUE (TOTAL DIGESTIBLE NUTRIENT VALUE)

TDN Value is the digestible energy derived from the natural ingredients in this product. This energy is released by the native soil microbes which increases their soil activity. This TDN energy value is exclusive to natural ingredients used in this product. The higher the TDN value, the more energy that is in the product. This released energy is the unique agronomic benefits derived from using natural fertilizer products. For example, all traditional fertilizers have a 0 TDN value and 100% manure products have around a 20 TDN value.
