

## SANCTUARY LAWN CARE

# SANCTUARY TDN<sup>®</sup>

## 8-8-8 STANDARD GRADE

**SANCTUARY TDN<sup>®</sup> 8-8-8** is a cost-effective organic based product that contains protein meals, urea and diammonium phosphate as nutrient sources. This nutrient blend provides an excellent residual release of nutrient in all types of weather.

This is an excellent all-season, multi-purpose turf and ornamental product. Plus, this product is rich in carbohydrates and humic acid. These non-plant nutrients add carbon energy for microbial stimulation. This organic based product has a low salt index for all types of turf and ornamental applications.

### TDN VALUE (TOTAL DIGESTIBLE NUTRIENT VALUE)

TDN Value is the digestible energy derived from the natural ingredients in this product. This energy is released by the native soil microbes which increases their soil activity. This TDN energy value is exclusive to natural ingredients used in this product. The higher the TDN value, the more energy that is in the product. This released energy is the unique agronomic benefits derived from using natural fertilizer products. For example, all traditional fertilizers have a 0 TDN value and 100% manure products have around a 20 TDN value.

### DIRECTIONS FOR USE
