

SANCTUARY TDN[®]

21-0-4 STANDARD GRADE

SANCTUARY TDN[®] 21-0-4 is an all-purpose blended turf product that combines natural and traditional fertilizer ingredients for all turf types and weather conditions. This product delivers outstanding residual color throughout the growing season, and is safe to use in the summer months. The ingredients promote microbial stimulation to improve poor soil conditions. The traditional fertilizer aspect helps to manage costs. This product promotes residual color, enhanced stress tolerance, turf density, wear tolerance, water management, turf recovery and excellent rooting.

SANCTUARY BENEFITS

- 1 Stimulates Existing Soil Microbes to Improve Nutrient Release**
- 2 Provides Outstanding Residual Color, Growth and Rooting**
- 3 Establishes Improved Bio Energy Values for Periods of Stress**
- 4 Improves Nutrient & Water Efficiencies**
- 5 Enhances Disease and Stress Tolerance Programs**
- 6 Improves Soil Aggregation & Microbial Bio Diversity**

SANCTUARY LAWN CARE

21-0-4 STANDARD GRADE

GUARANTEED ANALYSIS

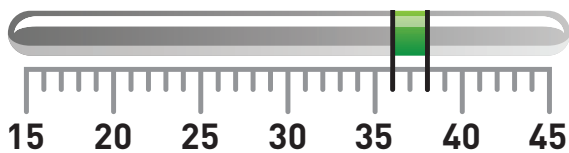

Total Nitrogen (N)..... 21.0%
17.5% Water Soluble Nitrogen*

Soluble Potash (K₂O)..... 4.0%

Derived from Feather, Fish, Blood meals, Urea and Muriate of Potash.

*3.5% Slowly Available Nitrogen derived from Feather Meal, Fish Meal, Blood Meal and Methylene Urea.

TDN VALUE (TOTAL DIGESTIBLE NUTRIENT VALUE)

TDN Value is the digestible energy derived from the natural ingredients in this product. This energy is released by the native soil microbes which increases their soil activity. This TDN energy value is exclusive to natural ingredients used in this product. The higher the TDN value, the more energy that is in the product. This released energy is the unique agronomic benefits derived from using natural fertilizer products. For example, all traditional fertilizers have a 0 TDN value, a 100% manure product has around a 20 TDN value, hybrid manure products have a TDN value around 8.

DIRECTIONS FOR USE

SPRING PROGRAM:

Sanctuary applied in the spring provides outstanding residual color and slow even growth. The product can be applied at the rate of 3.5 lbs/M.

SUMMER PROGRAM:

Sanctuary applied in the summer provides outstanding wear and stress tolerance. The product can be applied at the rate of 3.5 lbs/M.

FALL PROGRAM:

Sanctuary applied in the fall provides outstanding excellent rooting and recovery. The product can be applied at the rate of 3.5 lbs/M.

COLOR BEDS & BULBS:

Incorporate 3.5 lbs per 1000 sq ft prior to planting to enhance establishment. Apply 3 lbs per 1000 sq ft every 45 to 60 days for continued summer blooms.

FOUNDATIONAL PLANTING BEDS:

Broadcast 3.5 lbs per 1000 sq ft Spring and Fall to enhance rooting and plant resilience and soil microbial life.
