

SANCTUARY

21-0-4 + SYNERGY

This product is an all-purpose premium product for golf, lawn care, sports turf and ornamental program applications. This product blends Sanctuary natural fertilizer with traditional fertilizer ingredients. This product delivers bio nutrition and nutrients while building microbial life.

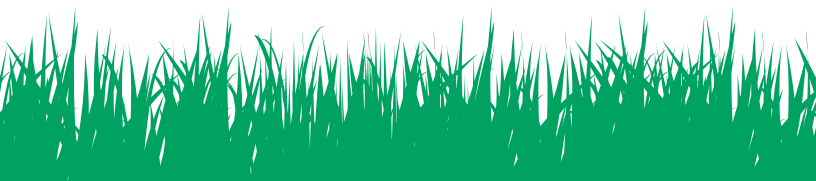

This product also contains Synergy, a wetting agent for water conservation. Synergy can help complements your overall wetting agent program. Plus, a non-staining bio iron is added to extend color. The rate of application is 3 bags per acre for 10 to 14 weeks of release. This product is ideal for all “Turf Varieties, Soil Types & Weather Conditions.”

BENEFITS

- Promotes A More Sustainable Product Choice That Enhances Nutrient Delivery
- Contains Synergy Wetting Agent to Manage Water Usage
- Delivers 10 to 14 Weeks of Residual Color, Growth and Rooting
- Contains A Non Staining Bio Iron for Enhanced Turf Color
- Enhances Soil Microbial Life that Impacts Repetitive Agronomic Issues

THE SCIENCE IS SIMPLE

“Sanctuary 21-0-4 increases the soil microbial populations that promote a natural sustainable approach. This reduces the amount of nutrients and water required without jeopardizing the turf health nor negatively impacting the environment.”

SANCTUARY

GUARANTEED ANALYSIS

Total Nitrogen (N).....21%

17.8% Urea Nitrogen*

3.2% Water Insoluble Nitrogen

Potassium (K₂O).....4%

Iron (Fe).....2%

Derived from: Feather Meal, Soybean Meal, Urea, Polymer-encapsulated Urea, Muriate of Potash, Wheat Middlings, and Iron Sucrate

*8.19% Slowly Available Water Urea Nitrogen from Polymer.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

0.12% Alkoxylated polyols – 0.08% Glucoethers

DIRECTIONS FOR USE

Lawn Care – Apply 3 bags per acre every 6 to 8 weeks for excellent residual color, growth, wear tolerance and overall turf resilience.

Golf Fairways, Athletic Field & Roughs – Apply 3 bags per acre for 8 to 12 weeks of turf maintenance. Apply 5 bags per acre for 10 to 16 weeks of residual color.

Horticultural Care – Apply 3 lbs per 1,000 sq ft in the Spring and Fall for excellent rooting, stress tolerance and overall plant health.

Walkways should be dry at time of application. This product may stain or leave residue on driveways, walkways, streets, porches and other non-target areas. Sweep walkways immediately after application and prior to irrigation.

SPREADER SETTINGS:

TurfGro/Spyker – 4.5

Lesco – F

Earthway – 12

These recommended spreader settings are given for a walking speed of approximately 3.5 mph.

Provided for guidance only. Exact rates cannot be guaranteed – rates depend on the spreader, operator and environment. Calibration of spreader at each usage is recommended.

**Apply Any Time, Any Turf Type &
Any Weather Conditions**
