# SOIL MD

*Powered by The Sanctuary*

## STEP 1: SOIL & MICROBIAL FITNESS FOOD

**SANCTUARY SOIL MD** feeds the native soil microbes that deliver the nutrients to the plant. These microbes unlock nutrients in the soil. Plus, they help to enhance nutrient and water uptake while promoting an environment for root growth.

### BENEFITS

- **FEEDS NATIVE SOIL MICROBES**
- **PROMOTES WATER INFILTRATION**
- **UNLOCKS SOIL NUTRIENTS**

### DIRECTION FOR USE:

Apply Soil MD as a soil drench with a watering can or added into an injection drip irrigation system.

**Installation** – Add 6 oz. of Soil MD to 1 gallon of water. Drench plants after installation of flowers, vegetable plants, hanging baskets or ornamental plants

**Maintenance** – Add 3 oz. per of Soil MD to 1 gallon of water. Treat 30-days after installation as a soil drench or through the injection drip system.

**First Aide** – Add 6 oz. of Soil MD to 1 gallon of water. Plants showing signs of weather stress apply weekly until the problem is corrected.
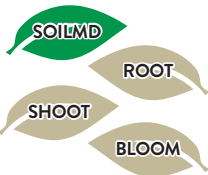

**1 GALLON**
