Use in accordance with the recommendations in “Best Management Practices for the Enhancement of Environmental Quality on Florida Golf Courses”, published by the Golf Course Superintendents Association of America and Florida Department of Environmental Protection, dated September 2021.

Do not to exceed rates recommended in the document entitled “Florida Friendly Best Management Practices for Protection of Water Resources by the Green Industries” published by University of Florida (UF), Institute of Food and Agricultural Sciences (IFAS) Extension Service, revised in 2020.

IN VIRGINIA: this lawn/turf fertilizer contains phosphorous and is only for non-agricultural use on (i) turf during its first growing season, (ii) on turf areas being repaired or renovated, and (iii) on turf where a soil test performed within the last 3 years indicates a phosphorus deficiency. This fertilizer is not for routine maintenance of turf.

IN MARYLAND: Do not apply this product at more than 11.25 lbs. product per 1,000 sq. ft. This product is providing nutrients as determined to be necessary in accordance with a soil test that was conducted by a laboratory identified under 8-803.7 of this article and performed no more than 3 years before the application.

WARRANTY

The Sanctuary, Inc. warrants that this product conforms to the analysis on its label. When used in accordance with label directions, under normal conditions, this product is reasonably fit for its intended purposes. Since timing, method of application, weather, plant, and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.

In Virginia, this lawn fertilizer, which contains phosphorous, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

DIRECTIONS FOR USE ON GREENS

GENERAL TURF MAINTENANCE: Apply 12 lbs. per 1000 sq. ft. at a 8 to 12 week interval to optimize color and growth. 6 lbs per 1000 sq ft at a 4 to 6 week interval offers enhanced turf quality.

AFTER AERATION: Apply 12.5 lbs per 1000 sq ft after aeration for turf recovery and root development.

IN THE FALL: Apply 12.5 lbs per 1000 sq ft as a late fall application for root development and outstanding spring color.

TURF ESTABLISHMENT: Apply 25 lbs per 1000 sq ft as a seedbed preparation incorporated into the top 4 inches.

COLOR BEDS & BULBS: Incorporate 25 lbs per 1000 sq ft prior to planting to enhance establishment. Apply 12 lbs per 1000 sq ft every 45 to 60 days for continued summer blooms.

Premium Greens Grade 40 SGN

F 1386
