Natural Golf & Lawn Care Products by the Sanctuary

10-0-5

A BLENDED PROFESSIONAL TURF FERTILIZER

DESCRIPTION: Sanctuary 10-0-5 offers a 2:1 ratio of nitrogen to potassium for added stress tolerance. This slow release nitrogen product provides a slow, even feed to the turf. Plus, this non-phosphorus product is ideal in environmentally sensitive areas inclusive of wetlands and waterways. Sanctuary 10-0-5 contains 100% slow release nitrogen that is ideal for excellent residual color, and for stress and wear tolerance in the summer. Sanctuary 10-0-5 enhances the microbial life and nutritional energy in the soil system. Sanctuary 10-0-5 can be applied throughout the growing season at a wide range of nitrogen rates. This all-season product offers excellent turf recovery and promotes rooting and turf density in the fall.

GUARANTEED ANALYSIS:

Total Nitrogen (N) 10.0%
2.0% Water Insoluble Nitrogen*

Soluble Potash (K₂O) 5.0%

Derived from Hydrolyzed Feather Meal, Blood Meal, and Potassium Sulfate.

* 2.0% Water Insoluble Nitrogen Derived from Feather Meal.

DIRECTIONS FOR USE:

Spring: Apply 6 lbs of product per 1000 sq ft for residual color and growth.

Summer: Apply 4 lbs of product per 1000 sq ft for residual color and summer stress tolerance.

Fall: Apply 8 lbs of product per 1000 sq ft for summer stress recovery and residual color & growth.

Late Fall: Apply 8 lbs of product per 1000 sq ft for enhanced turf density, rooting and spring green up.

After Aeration: Apply 8 lbs of product per 1000 sq ft for rooting and recovery.
